

TCHUILENG TCHUDJO JOSEPH QUENTIN

Software/DevSecOps Engineer

DevSecOps-minded Software Engineer and M.Eng. student (McMaster; B.Sc. CS, Peking University) with hands-on experience across backend, cloud, and platform security. Builds secure, observable, automated delivery for AI and app workloads. Multilingual (French/English/Chinese/Spanish). Community leader (VP, SEPT Society). EGS EDI Award recipient.

Experience

Startup Survivor (McMaster), Participant

Built “DreamShield” prototype roadmap (ANC wearables, RAG app) • Delivered customer-interview insights and Phase-2 hardware plan • Presented to mentors; iterated on TAM/SAM/SOM • Tools: Fusion 360, BLE/nRF, M

Founder
2025

Software Developer Intern

Shipped features in a CI/CD setup, writing unit tests and creating internal documentation while improving reliability through bug triage.

DLD Group
January 2025 - September
2025

DevOps Intern

Containerized services on Kubernetes and implemented CI/CD with quality gates, using Terraform for environment consistency and monitoring with Prometheus.

Tencent
January 2022 - November
2022

Software Developer Intern

Containerized services on Built and tested Java/Spring Boot REST APIs with JUnit and TDD practices; delivered in agile Scrum sprints.

Huawei
January 2023 - August
2022
